## WHEAT CLOSES ON FIRMER QUOTATION

COVERING MOVEMENT ON SHORTS CARRY PRICES SHARPLY HIGHER.

By Associated Press

CHICAGO, Aug. 31.—Wheat made a firm finish today. Houses with export connections took the surplus out of the market on the break, and later when the extent of export business at the weekend was given out, shorts started a covering movement, which carried prices sharply higher. The close in wheat found prices 1 3/4 to 2 1/4 up; corn 1/4 to 3/8 higher, and oats 1/4 to 1/2 higher.

There was considerable pressure early, but offerings were readily absorbed, and prices advanced readily to above yesterday's finish.

Provisions were weaker, and lower liquidation in January had a feature. The lower cotton market had somewhat of a depressing effect. Support was light and selling scattered.

NEW YORK, Aug. 31.—Raw Sugar was steady and unchanged at 4.61 1/2 for centrifugal.

In refined all refiners came to the 50 basis for fine granulated, while the demand was slow.

## DRY GOODS

NEW YORK, Aug. 31.—Cotton goods and cotton yarn markets were less active today. Yarns were revived upward on many finished lines to meet the recent advances in unfinished cloth. Silks were quiet. ## BEEF STEER SALE REPORTED DRAGGY

CATTLE MARKET STEADY IN MOST LINES, ESPECIALLY CALVES.

By Associated Press

FOIT WORTH, Texas, Aug. 31.—In most respects the cattle market was steady today, but the beef steer trade was draggy in face of light receipts, and some sales were at lower prices. Cows, heifers and yearlings met with very fair demand and were unchanged. Calves averaged steady. One car of strictly choice calves brought \$7.00. The top on steers was \$4.15. Receipts amounted to 5,000 head of cattle and 3,000 calves.

Early hog sales were around 25¢ lower, but the close was 25¢ to 40¢ down, and slow at the decline. A shipper paid \$8.50 for two cars, and two loads went to packers at \$7.75 to \$8.25. Pigs sold at \$6.00 to \$7.00, the market being 25¢ lower; hog receipts reached 2,000 head.

Around 2,000 head of sheep arrived. The market was steady with the recent decline. Good wethers brought \$4.35.

## COTTON

NEW YORK, Aug. 31.—There was a sensational break in the cotton market right after the opening this morning. January sold off to 15.50 within the first ten minutes of trading or a full cent below yesterday's closing quotation and other months showed losses ranging from 85 to 20 points.

Sharp rallies followed but were not fully maintained, with January closing at 16.25, and the general market steady at a net decline of 32 to 75 points.

Liverpool was a little better than due and the market here opened steady to a decline of 12 points, but quickly became exceedingly active and excited.

Local brokers attributed the break chiefly to selling in an overbought market accompanied by apprehensions of increased spot offerings should tomorrow's official crop figures fail to stimulate fresh buying and there was some talk around the ring that a further advance in cotton goods might check the demand for consumption. Two more private crop reports were issued, one placing the condition at 53.1 and the indicated crop at 7,905,700 bales, while the other placed the condition at 46.46, the lowest figure so far mentioned.

NEW ORLEANS, La., Aug. 31.—A violent decline resulted in the cotton market today from the large volume of liquidation that came from the long side. Momentarily, on the first call, there were advances of 10 to 15 points which carried stronger positions to new high levels for the season, but within a few minutes a terrific melting away of values came about and before the end of the first hour, prices were 75 to 80 points down from the level of yesterday's close and almost a cent a pound down from high levels of the opening. October traded up to 16.25 and dropped to 15.30.

This early slump was the widest fluctuation of the day, the market getting some steadiness from very low private bureau reports on conditions which brought in new buying orders, but no pronounced strength was on display and only partial recoveries in price were made. Toward midday prices were only about 25 to 30 points under yesterday's finals, but later they fell off and on the close the list showed net losses on the session of 49 to 57 points. October winding up at 15.55. The latter opening was caused at a higher Liverpool market than expected and recovery from the first slump of the day was due to a private bureau report on condition of only 46.6 per cent of normal, the lowest condition estimate yet made.

## COFFEE

NEW YORK, Aug. 31.—After opening at an advance of one to five points coffee futures eased off slightly under scattered liquidation. Otherwise, there was very little selling and the new active positions sold 10 to 17 points net higher with December touching 7.33 in reports of a firmer tone in the cost and freight market and talk of a better spot demand. December closed at 7.20 with the general market closing at a net advance of 11 to 15 points. Sales were estimated at about 31,000 bags; September 6.85; October 6.80; December 7.20; January 7.32; March 7.38; May 7.50; July 7.54.

Spot coffee was reported firm at 7 1/2 for Rio 7 1/2 and 10 1/
